March   April   May   June   July |

a) Data given as a balance of opinions. Forecast series are adjusted for bias when it is statistically significant.

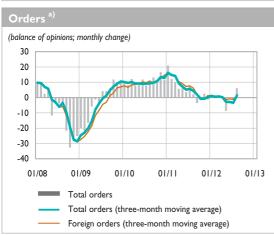

Source: Banque de France.

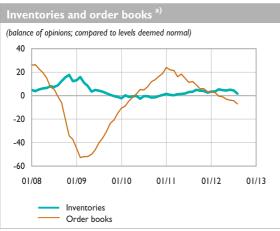

b) Data given as a percentage.

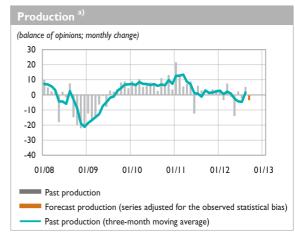

c) The indicator summarises industrial managers' sentiment regarding business conditions. The higher the indicator is, the more positive the assessment. The indicator is calculated using a principal component analysis of survey data smoothed over three months. By construction, the average is 100.

a) This item includes the outstanding amounts of market operations.

Source: Banque de France.

b) The breakdown by sector of issuance (MFIs, central government) has been precised.

c) Including the adjustment linked to the latest method of accounting used for measuring the notes on the asset side of the balance sheet of the Banque de France since January 2002.

d) Since January 2002, banknotes in circulation figure is being adjusted to bring them in line with the capital key share ("Capital Share Mechanism"). The ECB is the legal issuer of the total euro banknotes in circulation, and the National Central Banks disclose euro banknotes liabilities equivalent to their respective capital key share, calculated on the basis of the remaining 92% of the overall amount of euro banknotes.

NB: Since July 2003, financial transactions carried out by La Poste have been accounted for in the balance sheet of monetary financial institutions. This has resulted in an increase in the item "Shares and other equity" in Assets, and in "Overnight deposits" and "Capital and reserves" in Liabilities.

The sum of the components may not be equal to the total (or to 100) due to rounding.

Since January 2009, a new methodology for collecting and reporting statistics has been established on the TARGET2 data to improve data quality. This must be taken into account when comparing 2009 data with previous data.

- a) Since 19 May 2008, the operations of the United Kingdom pass in transit by this country.
- b) Variable composition according to the countries which participate in the systems of payment in euro.
- c) Euro1 (EBA): clearing system of the Euro Banking Association. Euro1 data include retail payments recorded in STEP1.

a) Since 18 February 2008, TBF (the French component of TARGET) and PNS systems have been replaced by TARGET2-Banque de France, the single French large-value payment system.

b) Until 15 February 2008, the indicated amounts corresponded to collateral used for intraday credit in TBF. Since the go-live of the "3G" system (Global management of collateral) and TARGET2-Banque de France on 18 February 2008, the amounts represent the collateral posted in a single pool of assets and that can be used for monetary policy and/or intraday credit operations.

c) Other foreign securities submitted via links between securities settlement systems.
