(percent)

- Interest rates presented here are effective rates calculated by dividing the accrued interest flows months under review to the monthly average of the corresponding outstanding amounts. For the different types of deposits, they correspond to the average conditions practiced by the French credit institutions on deposits of non financial corporations and households (including non-profit institutions serving households) residents.
- Average pay rates for different deposits and money market weighted by the corresponding outstanding (zero rate for banknotes in circulation, equivalent to 3-month Euribor for the products included in M3 - M2 except MMFs).
- Regulated rates passbooks include passbooks A, blue passbooks, sustainable development passbooks, housing savings passbooks, youth passbooks and people's savings passbooks.
- Annual performance of MMF shares, after deduction of management fees.
- The methodology related to the compilation of the rate of return of MMF shares has been refined. This leads, for the month of November 2015, to an upward revision of 19 bps on the rate of return of MMF shares and 3 bps on the average rate of monetary deposits and investments. Past data have been revised accordingly.

## Remuneration of deposits with monetary financial institutions

### Monetary deposits and investments. 3-month Euribor and minimum bid rate in the Eurosystem tenders

### Home savings plans

Bank savings rates PEL = 70% 5-year swap rate + 30% (swap rates 10 years - swap rate 2 years) (Order of 20 January 2011)

### Regulated savings passbooks

Source and calculation: Banque de France

### Ordinary savings passbooks

Performed 8 February 2016

### Additional information

Monetary deposits and investments referred in this document are operations made by non-financial counterparts (households, NPISH and non-financial corporations) vis-à-vis resident credit institutions and money market funds (MMF). These operations are of up to, and including, 2 years maturities. Interest rates are expressed as gross values, i.e. before taxes.
